

Rejuragen 2.0

Rejuragen 2.0 Pro Kit is a no-downtime rejuvenation treatment that uses refined white spicules to create micro-channels, delivering freshly activated collagen, hyaluronic acid, dual exosomes, and PDRN deep into the skin for lasting renewal.

BENEFITS

- Stimulates collagen and elastin
- Improves skin texture

TREATMENT STACKING

Clearance Clearance C4 Mask

OPTIONAL MODALITIES

Cryofacial Tool or Device

RESOURCES

[Dermethod Rejuragn 2.0](#)

BACKBAR COST

Approx \$15

BEFORE | DURING | AFTER

Pre-Care

Discontinue exfoliating actives 7 days before treatment.

In Treatment Experience

Spicules feel prickly. Expect this sensation to last up to 72 hours.

Post Treatment Care

Do not exfoliate for 7 days.
Keep skin hydrated and protected. We recommend giving clients samples of Dermethod's [Revive Cleansing Gel](#) and [Amisterol Cream](#) for recovery.

Treatment Cadance

1 to 4 sessions 1 to 2 weeks apart is recommended.

PRODUCTS NEEDED

Dermethod Revive Cleansing Gel
Dermethod Rejuragen

CONTRAINDICATIONS + CONSIDERATIONS

Any allergies to ingredients, sunburn, eczema, psoriasis or any type of dermatitis, shellfish allergy

PROTOCOL

CLEANSE + PREP

Prepare skin by cleansing with Dermethod Revive Cleansing Gel

TREATMENT STEPS

1. Cleanse skin with Dermethod Revive Cleansing Gel as a first cleanse.
2. Apply Rejuragen
 - Remove the white cap from Exosome Activator (A). Using the syringe provided, insert the needle into the rubber cap's (+) mark and draw 5-6 mL of solution. Remove the white cap from the Freeze-Dried Hydro Cube (B). Inject the extracted Exosome Activator (A) into the vial of Hydro Cube (B).
 - Attach the included silicone dropper to the (B) vial and shake well until the contents are fully mixed.
 - Apply the ampoule evenly over the skin. Press gently with your fingertips to help the spicules embed and absorb effectively. Do not remove.

FINISHING STEPS

Apply Dermethod's Amisterol Cream and SPF
